What is Passion Driven Leadership™?

The ability to inspire action in others by harnessing the boundless enthusiasm and deep feelings of the human heart.

What problems does Passion Driven Leadership solve?

Even as our world problems seem too large to solve, the challenges of everyday life require continual, incremental changes to move them from problem to solution. Taking these small steps can benefit our immediate family and community in a time frame where we can actually see results.

How does Passion Driven Leadership solve these problems?

The Passion Driven Leader provides a framework to empower courage and guide the process while simultaneously tapping the emotional energy and talent of the community. It draws on the Power of Good in individuals as a catalyst to transform concern into action.

Big Picture Drivers

- ◆ Your Path to Positive Politics is a journey, not a sprint.
- ◆ Perfect Degrees of Separation create the basis of all positive politics.

Personal Drivers
